### Get Started

**Analyze Data with Giovanni**  
Visualize and analyze data in a simple intuitive user interface

**Search for Data with Mirador**  
Search on time, space and keywords for datasets and data files

**Get Near-Real-Time Data**  
Near real time data and images for L1B and L2 with ~3 hr latency

**Subset Data using SSW**  
Use the Simple Subset Wizard for subset requests of data sets across several data centers

**See Imagery in Virtual Globes**  
2D and 3D vertical data in KML files usable by virtual globes, such as GoogleEarth

# YouTube

- **NASAGESDISC** is our YouTube channel. We will be adding more narrated news videos and instructional videos in the coming weeks and months.

The screenshot shows the YouTube channel page for NASAGESDISC. The header includes the YouTube logo, a search bar, and navigation links for Browse, Movies, and Upload. The channel name "NASAGESDISC's channel" is displayed with a "Subscribe" button, along with 2 subscribers and 309 video views. The main content area shows a list of videos under the "Feed" tab. The first video is "NLDAS NOAH netCDF" (3:04) with 34 views, described as a short video demonstration on how to get NLDAS NOAH model data in netCDF format. The second video is "SWDB Monthly Video News, new introduction" (2:24) with 18 views, described as a video news article with a new animated introduction. The third video is "NASA GES DISC Video News - SWDB Monthly" (2:08) with 26 views, described as a video news article about new atmospheric aerosol data. The right sidebar contains an "About NASAGESDISC's channel" section, stating it provides instructional videos, animated news videos, and other topics of interest from the NASA Goddard Earth Science Data and Information Services Center, located in Greenbelt, Maryland. It also lists the channel's latest activity (Apr 30, 2012), date joined (Mar 9, 2012), and country (United States).

# Facebook

- In the near-future, we will be re-creating the Giovanni Facebook presence as a Facebook page.

# **Giovanni News Mailing List**

- You can also join the Giovanni News mailing list, and receive our newsletters. The next one will be sent right after the workshop.

# G4Social

- Chris Lynnes has already discussed G4Social, the collaborative tool that is part of Giovanni-4 development.
